1. GOVERNING AGREEMENT

Check one. This Order is governed by the agreement indicated below (the "Governing Agreement"), which is incorporated by reference. Capitalized terms have the meanings given in the Governing Agreement. This Order prevails over the Governing Agreement only to the extent the Governing Agreement's order-of-precedence clause allows.

[ ] MASTER SERVICES AGREEMENT. Provider's Master Services Agreement, version _____ dated _____, signed by the Parties on _____ or accepted online by Client on _____.

[ ] AWS MARKETPLACE. The Standard Contract for AWS Marketplace as amended by Provider's Professional Services Amendment, version _____ dated _____, for an offering bought through AWS Marketplace under private offer ID _____. Under this option Provider is the "Licensor" and Client is the "Buyer," the Fees and payment schedule are those in the private offer, and Client's acceptance of the private offer is Client's signature of this Order.

If neither box is checked, the Master Services Agreement governs, unless the Services were bought through an AWS Marketplace private offer, in which case the second option applies. The Service Schedule version that applies is version _____ dated _____.

4. CLIENT RESPONSIBILITIES

Client will provide the complete and accurate information, documentation, read-only system access and personnel availability reasonably required for the Services, on a timely basis, including the items listed in the Service Schedule. Provider's findings and Deliverables rely on that information, and Provider does not independently verify it. Client is responsible for its own decisions and for implementing or declining any recommendation. Client will not send Controlled Unclassified Information, export-controlled data, classified information, protected health information or payment card data to Provider unless Section 5 of this Order says otherwise.

6. ACKNOWLEDGEMENTS

Client acknowledges that: (a) the Services are readiness, review and advisory services and are not an audit, a certification assessment, a certification, an accreditation, an attestation or an opinion; (b) Provider is not a CMMC Third-Party Assessment Organization, an accredited certification body, a licensed certified public accounting firm or a classification society, and does not recommend or select one; (c) Provider makes no representation that Client will pass any audit or assessment, obtain any certification or satisfy any regulator or counterparty; (d) Provider does not make, sign or endorse any affirmation, attestation or representation that Client submits to a government body or other third party; (e) Deliverables describe conditions observed during the engagement period only; (f) Deliverables are for Client's internal use, and no third party may rely on them; (g) Provider does not provide legal, regulatory, accounting, tax, insurance or valuation advice; (h) Provider retains all Provider IP, the Deliverables are licensed and not assigned unless Section 5 lists them as Assigned Deliverables, and nothing is a work made for hire; and (i) each Party's liability is limited as the Governing Agreement states.

7. ACCEPTANCE

This Order may be signed by hand or by electronic signature, in counterparts. Where the Services are bought or requested through Provider's website or customer portal, the order summary shown at checkout or on the request form and the order confirmation or payment receipt are the Order: Client accepts by selecting the acceptance checkbox and completing the checkout or submitting the request, this form need not be signed, and the online record supplies the details above. Where the Services are bought through AWS Marketplace, Client's acceptance of the private offer is its signature of this Order. Electronic signatures and records have the same effect as handwritten signatures and paper records under the federal Electronic Signatures in Global and National Commerce Act and the Florida Uniform Electronic Transaction Act.
