

CMDash fact sheet

CMDash is the daily cybersecurity maturity dashboard: live posture scoring, compliance tracking across NIST CSF, CMMC, SOC 2 and more, and board-ready reporting in one place.

At a glance

19

frameworks supported
NIST CSF, CMMC, SOC 2, ISO 27001, ISO 42001, NIST AI RMF and more — seeded as real controls.

1,715

seeded controls
Counted from the same seed files the product runs on.

47

integrations
Adapters that exist on disk today.

797

crosswalk mappings
Control-to-control mappings so one piece of evidence satisfies several frameworks.

4

pre-filled security questionnaires

77

security & GRC landscape areas mapped

SIG Lite, CSA CAIQ v4, CSA AI-CAIQ, OWASP LLM Top 10 — answered and downloadable.

CMDash's own competitive-landscape atlas, including where CMDash itself does not compete.

Pricing

FREE — Free

STARTER — \$149/mo billed annually

ESSENTIALS — \$499/mo billed annually

COMMAND — \$1,499/mo billed annually

ENTERPRISE — from \$4,999/mo billed annually · contact sales
