SAAS AMENDMENT

to the Standard Contract for AWS Marketplace

GEN ETH, INC. d/b/a CMDash

Version 1.0 · November 18, 2026

This SaaS Amendment (this "Amendment") amends the Standard Contract for AWS Marketplace (the "Standard Contract") as it applies to the Subscription to the hosted CMDash service ("CMDash Cloud") that GEN ETH, INC., a Florida corporation doing business as CMDash, 1701 NW 107th Ave, Pembroke Pines, Florida 33026 ("Licensor"), offers to the party that accepts the applicable AWS Marketplace private offer ("Buyer" and the "Offer"). References to Sections of the Standard Contract are to the version AWS Marketplace publishes as the "2023 Update (2023-11-07)"; if the Offer carries a later version, each reference applies to the corresponding provision of that version. Capitalized terms that this Amendment does not define have the meanings given in the Standard Contract. A reference to a Section is to a Section of this Amendment, unless it says that it is a Section of the Standard Contract.

1. FORMATION AND STRUCTURE

1.1 Amendment and Acceptance. This Amendment is an amendment agreed upon by the Parties for the purposes of Sections 1.3(a) and 12.3 of the Standard Contract. It is attached to or referenced in the Offer. Buyer's acceptance of the Offer through AWS Marketplace, by an individual authorized to bind Buyer, is Buyer's signature of this Amendment, and Licensor's making of the Offer is Licensor's signature of it. This Amendment is part of the Agreement and is not "Additional Terms" under Section 2.5 of the Standard Contract. Electronic signatures and records have the same effect as handwritten signatures and paper records under the federal Electronic Signatures in Global and National Commerce Act (15 U.S.C. § 7001 et seq.) and the Florida Uniform Electronic Transaction Act (Fla. Stat. § 668.50).

1.2 Scope. This Amendment applies only to the Offer and to CMDash Cloud as a SaaS Service. It does not apply to self-hosted CMDash software, which Licensor licenses under its End User License Agreement, or to professional services, which Licensor provides under a separate agreement.

1.3 Service Policies. Licensor's Acceptable Use Policy, Service Level Agreement, Exit Guarantee and Independence Covenant, as published at cmdash.com on the date of the Offer (the "Service Policies"), are part of the Product Listing. A later change to a Service Policy that reduces Buyer's rights does not apply during a Subscription term that Buyer has already paid for, unless Buyer agrees.

1.4 Order of Precedence. The order of precedence in Section 1.3 of the Standard Contract applies, with this Amendment first and the data protection terms identified in Section 3.1 second.

2. USE OF CMDASH CLOUD

2.1 Sensitive and Controlled Data. CMDash Cloud runs in one commercial AWS region in the United States. It does not run in AWS GovCloud (US) and holds no FedRAMP authorization. In addition to Section 7.1.2 of the Standard Contract, Buyer will not upload to, type into or sync into CMDash Cloud, or send to Licensor's support: Controlled Unclassified Information, including Controlled Technical Information and covered defense information under DFARS 252.204-7012; technical data controlled under the International Traffic in Arms Regulations or other export-controlled technical data; classified information; protected health information; or payment card numbers. If Licensor learns that such information is in CMDash Cloud, it may quarantine the affected records and will work with Buyer to remove them. Buyer decides what goes into CMDash Cloud and how it is scoped in Buyer's own assessments.

2.2 Service Levels. The support and uptime commitments for Buyer's plan are those in the Service Level Agreement. Service credits under it are Buyer's sole remedy for a failure to meet an uptime commitment.

2.3 A Tool, Not an Audit or Advice. CMDash Cloud is a tool for managing security, risk and compliance. Licensor does not perform audits or assessments and does not certify compliance, and using CMDash Cloud does not by itself make Buyer compliant with any framework, regulation or contract. Output of an AI-assisted feature is a suggestion for a person to review, not a decision.

2.4 Benchmarks; No Sale or Training. Despite Section 7.2.3 of the Standard Contract, Licensor may include Buyer Data in aggregated benchmark comparisons that do not identify any organization, but only if Buyer opts in within CMDash Cloud. Licensor does not sell Buyer Data and does not use it to train third-party machine-learning models.

3. DATA PROTECTION AND DATA RETURN

3.1 Data Processing Addendum. For the purposes of Section 7.6.2 of the Standard Contract, the Parties expressly agree to be bound by Licensor's Data Processing Addendum (cmdash.com/trust/dpa), in the version current on the date of the Offer, in place of the Data Processing Addendum attached to the Standard Contract. That Addendum and Section 7.5 of the Standard Contract are the "Privacy and Security Terms." Licensor's sub-processors are listed at cmdash.com/trust/subprocessors.

3.2 Return and Deletion of Buyer Data. Buyer can export all Buyer Data at any time, at no charge, with the full export in CMDash Cloud, in the format the Exit Guarantee describes. After the Subscription ends for any reason, Buyer's organization remains available for that export for at least forty-five (45) days. That export, with the help Buyer reasonably asks for, satisfies Section 10.3.2 of the Standard Contract. Licensor deletes Buyer Data within thirty (30) days after Buyer deletes its organization or asks Licensor in writing to delete it, copies in backups expire on the schedule stated in the Data Processing Addendum, and Licensor will confirm the deletion in writing on request.

4. LIABILITY

4.1 General Cap. Section 8.1 of the Standard Contract applies. Where no fees were paid or required to be paid in the twelve (12) months it refers to, the amount in Section 8.1(b) of the Standard Contract is one hundred United States dollars (US $100).

4.2 Indemnities. In place of Section 8.3 of the Standard Contract, each Party's total aggregate liability for its indemnification and defense obligations under Section 9 of the Standard Contract will not exceed two (2) times the amount in Section 8.1(b) of the Standard Contract, in place of and not in addition to that amount. Section 8.4 of the Standard Contract continues to govern liability for a Security Incident, including the indemnification obligations that Section names. Licensor's liability under Section 8.4.2 of the Standard Contract will not in any case exceed the limit of the cyber liability insurance stated in Section 5.3. A higher amount than this Section states applies only if a writing signed by an officer of Licensor states it, and no higher amount is effective to the extent it exceeds the insurance actually available to Licensor for that claim.

4.3 Exceptions. Section 8.2 of the Standard Contract (gross negligence, willful misconduct and fraud) continues to apply. In addition, the limits in Section 8 of the Standard Contract and in this Section do not apply to Buyer's obligation to pay fees, or to Buyer's breach of Section 2.1 or of the Acceptable Use Policy.

5. GENERAL

5.1 Governing Law and Venue. In place of Section 12.1 of the Standard Contract: The Agreement, and any claim arising out of or relating to it or to CMDash Cloud, is governed by the laws of the State of Florida, without regard to its conflict-of-laws principles. The United Nations Convention on Contracts for the International Sale of Goods does not apply. The state courts located in Broward County, Florida and the United States District Court for the Southern District of Florida have exclusive jurisdiction, and each Party consents to personal jurisdiction and venue in those courts. Either Party may nevertheless seek injunctive relief in any court of competent jurisdiction to protect its intellectual property or Confidential Information.

5.2 Informal Resolution. Before filing a claim, other than a claim for injunctive relief or for unpaid fees, a Party will give the other written notice of the dispute, and senior representatives of the Parties will try in good faith to resolve it for thirty (30) days.

5.3 Insurance. In place of Section 11 of the Standard Contract: Licensor maintains the insurance coverages listed in its certificate of insurance, and will give Buyer a copy of the certificate on request. On the version date of this Amendment those coverages are: (a) commercial general liability, with Property and Casualty Insurance Company of Hartford, policy no. [on binding]: $1,000,000 each occurrence, $2,000,000 general aggregate and $2,000,000 products-completed operations aggregate; (b) umbrella liability over the general liability policy, with Property and Casualty Insurance Company of Hartford, policy no. [on binding]: $3,000,000 each occurrence and $3,000,000 aggregate; (c) technology errors and omissions (professional liability) and cyber liability, on one policy with Hartford Fire Insurance Company, policy no. [on binding]: $2,000,000 each claim and $2,000,000 annual aggregate for both

together, with claims expenses inside the limit; (d) computer crime, with [carrier, on binding], policy no. [on binding]: $1,000,000; and (e) employee theft, including client coverage, with [carrier, on binding], policy no. [on binding]: $500,000. Licensor will keep insurance of those kinds in force during the Subscription.

5.4 No Other Changes. Except as this Amendment changes it, the Standard Contract remains in full force and effect for the Offer.

AGREED. Where Buyer accepts the Offer through AWS Marketplace, that acceptance takes the place of the signature blocks below, as Section 1.1 provides.
